Summary

AI-Driven Operations & Analytics Professional with 3+ years of experience leveraging data, automation, and research-driven insights to improve operational performance and drive business outcomes. Demonstrated success in designing scalable workflows, analytical frameworks, and AI-powered solutions that reduced manual effort by **93%**, increased productivity by **50%**, and safeguarded over **\$12K** in operational value through proactive risk detection. Skilled in business research, strategic analysis, workflow optimization, and data-driven problem solving, with hands-on expertise in SQL, Python, R, SPSS, Tableau, and emerging AI technologies. Recognized for transforming complex challenges into efficient, scalable solutions that enhance decision-making, operational excellence, and organizational growth.

Professional Experience

Product Reviews Associate

February 2026 – May 2026

G2(via Gartner Digital Markets Acquisition)

Gurugram, India

- Conducted high-complexity qualitative and quantitative investigations using SQL, AI-assisted workflows, and self-built analytical frameworks to improve review accuracy, operational efficiency, and insight generation at scale.
- Built and optimized operational reporting systems, workflow templates, and scalable automation solutions, reducing reviewer note-generation time by **93%** while improving process visibility and reporting accuracy.
- Developed AI-assisted models and intelligent rule-based systems to proactively identify spam patterns and information mismatches, detecting sophisticated spam networks at day zero and preventing operational losses exceeding **\$12K**.
- Designed and implemented AI-powered operational workflows and built “**Reviora**” an internal AI operations co-pilot focused on onboarding, knowledge management, workflow optimization, and operational excellence.
- Delivered competitive intelligence and benchmarking analysis across productivity, quality, and operational performance metrics to support strategic decision-making and continuous improvement initiatives.
- Led AI adoption and operational learning sessions across teams and business units, driving awareness and upskilling around AI-driven workflows, automation, and process optimization.

Product Reviews Associate

August 2024 – February 2026

Gartner Digital Markets | Gartner

Gurugram, India

- Conducted qualitative and quantitative investigations to identify review discrepancies, information mismatches, and operational inefficiencies while maintaining high standards of review quality and accuracy.
- Leveraged SQL, analytical frameworks, and operational reporting systems to generate actionable insights, improve process visibility, and support data-driven decision-making.
- Contributed to workflow optimization initiatives by improving reporting structures, streamlining operational processes, and reducing manual effort across review operations.
- Delivered competitive intelligence and benchmarking analysis across productivity, quality, and operational performance metrics to support continuous improvement initiatives.
- Collaborated cross-functionally to identify operational gaps, resolve workflow issues, and improve process stability and user experience.
- Recognized for strong analytical thinking, operational excellence, and contributions toward process improvement initiatives.

Market Research Associate

July 2023 – February 2024

Delvens

Noida, India

- Spearheaded strategic and market intelligence initiatives by conducting Porter’s Five Forces, PESTLE, SWOT, DROC, M&A, and competitive benchmarking analyses using primary and secondary research methodologies to support business decision-making.
- Leveraged SQL, R, SPSS, Tableau, and advanced spreadsheet modeling to execute market sizing, forecasting, segmentation, and geographical market share analyses, transforming complex datasets into actionable insights for stakeholders.
- Developed data-driven market reports, dashboards, and analytical frameworks across multiple domains, enabling leadership teams to identify growth opportunities, market trends, and competitive advantages.
- Designed and optimized surveys, stakeholder interviews, and research methodologies using Google Forms, Typeform, MS Office Suite, and SPSS, ensuring high data integrity and analytical precision.

- Managed end-to-end research and analytics projects in fast-paced environments while consistently meeting timelines and stakeholder expectations.
- Achieved the highest report closure rate within the team, improving productivity by nearly **50%**.
- Architected advanced data collection and analytical methodologies that reduced processing time by **45 minutes** while improving operational accuracy.
- Revamped reporting structures and workflows, cutting processing time by **20 minutes** and increasing lead generation by **40%**.
- Streamlined research and reporting operations through automation-driven solutions, accelerating turnaround times and improving scalability.
- Recognized for consistently delivering high-quality insights under demanding timelines with strong analytical rigor and stakeholder satisfaction.

Skills

- **Core Competencies:** Business Research, Market Research, Operational Analytics, Workflow Optimization, Process Automation, Business Process Improvement, Strategic Data Analysis, Competitive Intelligence, Project Management, AI Workflow Design, Prompt Engineering.
- **Tools & Technologies:** SQL, Python, R, IBM SPSS, Tableau, Spreadsheets, n8n, AI Automation Tools, Generative AI, API & System Integrations.
- **Soft Skills:** Analytical Thinking, Problem Solving, Critical Thinking, Cross-Functional Collaboration, Stakeholder Management, Communication, Adaptability, Presentation & Workshop Facilitation, Project Leadership, Conflict Resolution.

Certifications

- Google AI Professional Certificate | Google | May 2026
- n8n Level 2: Advanced Course | n8n | May 2026
- Google Data Analytics Professional Certificate | Google | April 2024

Education

Master of Arts (MA) in Clinical Psychology Amity University	Noida, India May 2022
Bachelor of Science (BS) in Microbiology, Honors Amity University	Noida, India May 2020

Achievements & Publications

- Recognized at Gartner for analytical thinking, operational excellence, and process improvement contributions.
- Publication: Emotional Competence and Altruism among Young Adults in India — International Journal of Recent Advances in Multidisciplinary Topics | *November 2022* (empirical behavioral research using quantitative methods)
